Important Patron Update: Free Entertainment

This information is current as of 18 March 2020 13:00PM (AEDT)

As with many organisations across Australia, the past 7 days have been challenging as Wests Entertainment Group make preparations to minimise the impact of the COVID-19 virus.

The Prime Minister has just announced new measures to control transmission of COVID-19 and these have a direct effect on clubs. The new measures include a ban on all indoor, non-essential gatherings of more than 100 persons. These measures commence immediately.

Wests Entertainment Group wishes to advise until further notice all free entertainment has been cancelled as the health of our members, guests, visitors, artists and team members is of paramount importance during this COVID-19 pandemic.

We thank you and appreciate your ongoing support. This decision has not been made lightly, but with full consideration given to the broader community and those who are vulnerable or at greater risk of being impacted by the virus.
